Todays Program
Cynthia Larive Chancellor of UCSC
Reflecting on the first season in Santa Cruz

Cynthia was confirmed as the eleventh Chancellor of University of California Santa Cruz by the UC Board of Regents on May 16, 2019. She began her tenure on July 1, 2019. An accomplished bioanalytical chemist, Larive came to UC Santa Cruz from UC Riverside where she was serving as provost and executive vice chancellor. She is a collaborative leader who is committed to the principles of shared governance.

Programs - Gary Reece
 Invocation - John Dickinson
 Detective - John Dickinson

Quote of the day: “OK pilgrims” **Ross “sitting bull” Condit**

Guests: It was bring your spouse to rotary day! This is a great tradition at our club. Several times a year we see Rotarians bring their better halves to our meeting. This time of year is especially exciting because several of our programs are holiday themed. So be sure to invite your spouse to one of our upcoming joyous occasions.

Invocation: Jan “free bird” Derecho shared that the most influential person from the 20th century is Nelson Mandela. She recently visited South Africa and shared some thoughts from Dr. Mandela. “What counts in life is not the mere fact that we have lived. It is what difference we have made to the lives of others that will determine the significance of the life we lead.” I’m feeling different already.

Raffle: There was mass confusion amongst our crowd when our president pulled his own ticket. Our fearless leader did the right thing and pulled a new ticket. That ticket belonged to your editor. The wonderful gift provided by Karen “bees knees” Beeson. Was a delicious bottle of wine and a green gift certificate. The great news is the winner got 100 bucks and didn’t even have to take their clothes off.

Announcements: There were several announcements. Starting with the exciting news that Janet “two face”

Krassow won the exempt drawing. Janet is exempt of all fines and is charged with derailing future detective reports. The next announcement was an introduction of a new member. Join me in welcoming Sarah “mad dog” Madsen. Sarah received a number of delightful prizes from our president. Amongst her gifts were an exquisite hanging wall tablet transcribed with ancient Rotary gospel, a gold plated badge bearing the traditional Rotary shield, and a beautifully bound book containing the contact to some of the wisest people in our area. The next announcement was a request to purchase a brick for our veteran’s hall project. It’s a great gift and a wonderful deal because the person of your choosing will have their name memorialized on a brick and then stepped on from here until eternity. Finally, remember December 9th 5:30-7 is our annual ugly Christmas sweater social hosted at Stagnaros. Please see Jill “hard place” Stone for details.

Detective: Linda “poultrygeist” Burroughs came dressed as a turkey

and was stuffed with personalized dish towels. These towels revealed interesting information about our members. We learned that Jim “baby face” Zenner was born before the cell phone. Larry “dirt” Wallerstein is older than that. Tana “white” Widdows puts the devil to bed. Sid “good son” Slatter’s mom drinks because she loves him. Wes “he’s on fire” Walker wishes it was the 80’s when Fanny packs were cool. Aleene “tear drop” Althouse will kill a man. Annie “and every” Asche judges tight ends. Gary “eastwood” Reece likes getting lucky. In his car. In a parking lot. Donna “westend” Maurillo is exempt but was feeling lucky. Finally, Bob “take it to the” Rittenhouse felt we were all lucky Linda didn’t lay an egg.

Program: Al Smith came to tell us that California is full of faults. Many are political but he came to speak about the geological type. He showed a map of all the faults in California highlighted for clarity. The map resembled a bird’s nest overlaid on our state map. He

explained that the two biggest faults in our area are the Hayward fault located in the east bay and the San Andreas Fault. The San Andreas Fault is unique in that it is not one fault, it is many faults that got together to make a mega awesome fault. So the fault is like the Voltron of faults. Yay! The faults are due to slide anytime from 2009 to 2096. So if you didn’t know, now you know.
