**New Member Proposal**

Bob Bosso has proposed Kim Adamson for membership in our club (way to be proactive there big fella). If you would like to comment on Kim’s proposal, please make contact with Ian Mackenzie.

**New Named Scholarship  
Harlan and Therese Johnson**

Harlan and Therese made a very generous donation of \$15,000 to the Santa Cruz Rotary Endowment to establish a named Scholarship. It was an awesome gift and will serve as a perpetual reminder of the Johnson’s generosity.

**November is Foundation Month**

Tom Foster is serving as Chair of our Foundation Month “Every Rotarian, Every Year” foundation drive. What that really means is John Huffman will be working hard to garner commitments from each member. This is a very good thing. Donations to the International Foundation help you achieve your Paul Harris Fellowship. They also support Rotary’s mission of International Service. Finally, Rotary shepherds the money raised, uses it wisely, grows it through investment and matching grants and then finally returns much of it to our club for our own projects internationally and locally. Let’s do this thing!

**Last Week’s Meeting**

Peter asked me where I like to do my paddle boarding. Bang!, Blaine and Peter are connected in the brotherhood of stand-up paddle boards along with Jane Mackenzie. See, strike up a conversation and make a connection; that’s what’s great about Rotary.

Jim Zenner opened the meeting since Frank was away. Linda Burroughs offered her words of wisdom for the day. Jim harkened back to the “good old Days” when he was president. I’m not sure what happened next. Anyway we were singing the welcome song and then Sam Bishop won a raffle prize. Ian Mackenzie provided the gift, which looked really great. It was a basket with wine and chocolate and stuff. Sam wouldn’t let me get near it (smart guy that Sam).

Jim Bargetto served as detective and he proceeded to badger, hound, cajole, plead and guilt money out of folks. I was a victim of Jim to the tune of \$20; so someone will have to pay! Actually, I sort of hurt myself by insulting the detective (I’m not a very smart man).

Our speaker was Eric Stanfield, CEO of Rope Partner. He is an excellent speaker and produced some amazing images of his professional crew at work on wind turbines. His company can deploy people pretty much anywhere in the country on short notice to keep these huge windmill blades turning. The company grew out of a passion for rock climbing and outdoor adventuring. As with most upstart companies, they started in a garage and have grown to occupy a much

larger warehouse space on the Westside of Santa Cruz. Eric indicated there are something like 45,000 wind turbines in America and they last about 20 years. Like any machine with moving parts, they need maintenance and repair. The largest of the turbines are over 150 meters in diameter (yeah, that’s right a football field and a half plus). Rope Partner technicians must meet certification status for ropes. I’m not exactly sure what that means other than they don’t just let anyone out on a rope to work hundreds of feet up above the ground.

**Club Calendar**  
**November 13 – Board of Directors Meeting**  
**Mystery Trip – See Wes Walker to join the committee. This is one of the best events the club does. The date has yet to be solidified, so keep reading here for updates.**
